

# OPERATION: KINDER GARTEN

## FAQ

**What do you do with Chaos tiles 19 and 20 in a game with 3 players?**

Simply remove them from the game during setup.

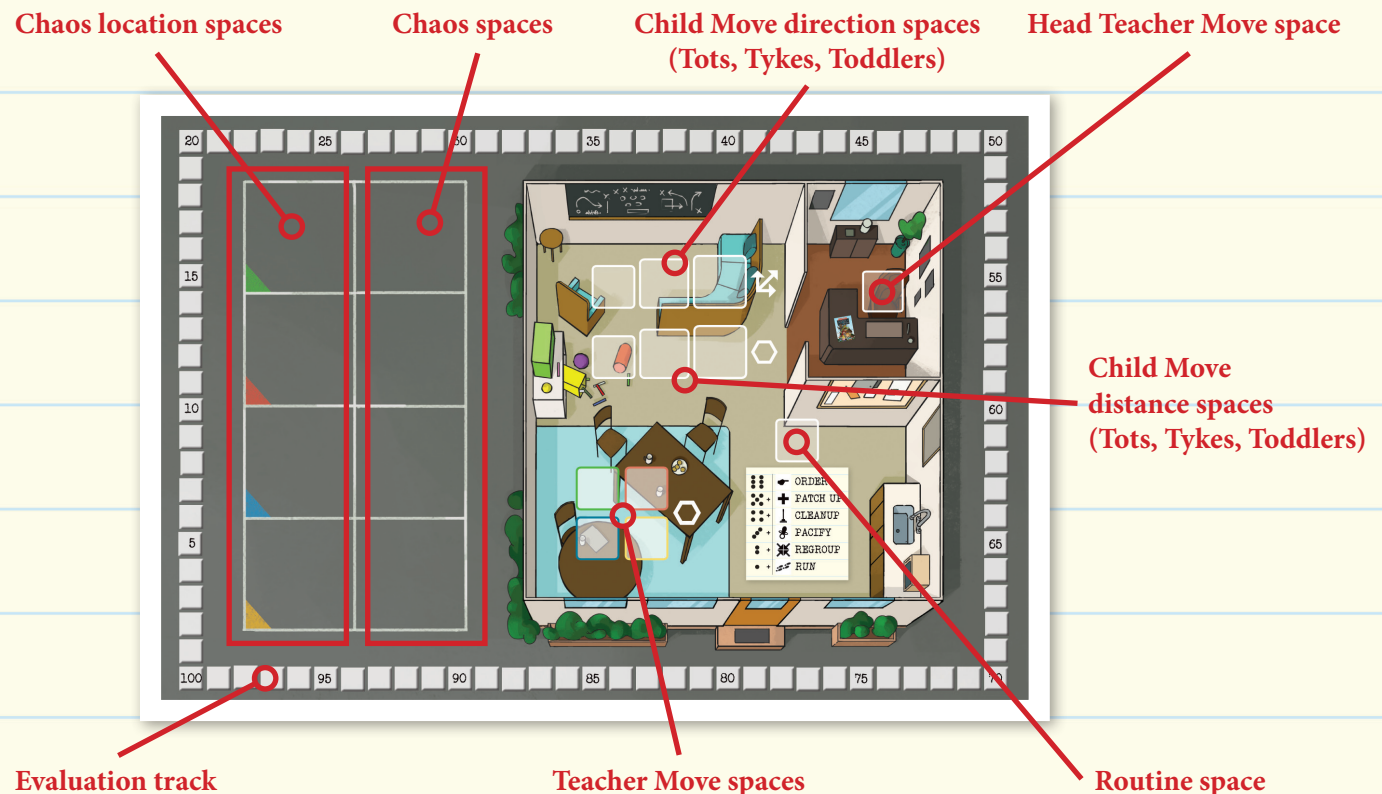

**During Roll Call, are the dice on the Teachers' Lounge supposed to be placed in ascending order?**

No. The dice remain as they are thrown, and the players are free to choose and place them in any order that they wish.

**And why are the spaces in the seating area of the Teachers' Lounge in player colours?**

These spaces are used to place dice that determine the movement allowance of each player's own Teacher token.

**What are the dice placement areas in the teachers lounge?**

**What is the significance of the 2 sides of the sandbox that are marked by a black bar?**

Children may not enter the Sandbox from those sides - note the lack of dice face symbols for those hex edges.

Teachers may enter the Sandbox normally from those sides.

**What happens to the 4 tiles used as location indicators on the Teachers' Lounge board?**

**Do they go back into the bag?**

Yes, immediately after the corresponding chaos tiles have been placed.
